SUBJECT INDEX

Abdominal Muscles
Warren LP, Appling S, Oladehin A, Griffin J: Effect of soft lumbar support belt on abdominal oblique muscle activity in nonimpaired adults during squat lifting, 31(6):316–323

Aging
Lundon K, Bolton K: Structure and function of the lumbar intervertebral disk in health, aging, and pathologic conditions, 31(6):291–306

Anatomical Variations
Rusnak-Smith S, Moffat M, Rosen E: Anatomical variations of the scalene triangle: dissection of 10 cadavers, 31(2):70–80

Ankle
Pugia ML, Middel CJ, Seward SW, Pollock JL, Hall RC, Lowe L, Mahony L, Henderson NE: Comparison of acute swelling and function in subjects with lateral ankle injury, 31(7):384–388
Vaes P, Gheluwe BV, Duquet W: Control of acceleration during sudden ankle supination in people with unstable ankles, 31(12):741–752

Anterior Cruciate Ligament Deficiency
Ageberg E, Zätterström R, Moritz U, Fridén T: Influence of supervised and nonsupervised training on postural control after an acute anterior cruciate ligament rupture: a 3-year longitudinal prospective study, 31(11):632–644
Cerulli G, Benoit DL, Caraffa A, Ponteggia F: Proprioceptive training and prevention of anterior cruciate ligament injuries in soccer, 31(11):655–660
Fitzgerald GK, Lephart SM, Hwang JH, Wainner RS: Hop tests as predictors of dynamic knee stability, 31(10):588–597
Fridén T, Roberts D, Ageberg E, Waldén M, Zätterström R: Review of knee proprioception and the relation to extremity function after anterior cruciate ligament rupture, 31(10):567–576
Houck J, Yack HJ: Giving way event during a combined stepping and crossover cutting task in an individual with anterior cruciate ligament deficiency, 31(9):481–495
Kvist J, Karlberg C, Gerdle B, Gillquist J: Anterior tibial translation during different isokinetic quadriceps torque in anterior cruciate ligament deficient and nonimpaired knees, 31(1):4–15
Lloyd DG: Rationale for training programs to reduce anterior cruciate ligament injuries in Australian football, 31(11):645–654

Anterior Cruciate Ligament Reconstruction
McHugh MP, Tyler TF, Nicholas SJ, Browne MG, Gleim GW: Electromyographic analysis of quadriceps fatigue after anterior cruciate ligament reconstruction, 31(1):25–32
Risberg MA, Mørk M, Jenssen HK, Holm I: Design and implementation of a neuromuscular training program following anterior cruciate ligament reconstruction, 31(11):620–631
Tyler TF, McHugh MP: Neuromuscular rehabilitation of a female Olympic ice hockey player following anterior cruciate ligament reconstruction, 31(10):577–587

Anthropometric Characteristics
Gaunt BW, Curd DT: Anthropometric and demographic factors affecting distance hopped and limb symmetry index in high school athletes, 31(3):145–151

Arthrometer
Borsa PA, Sauers EL, Herling DE, Manzour WF: In vivo quantification of capsular end-point in the nonimpaired glenohumeral joint using an instrumented measurement system, 31(8):419–431
Kvist J, Karlberg C, Gerdle B, Gillquist J: Anterior tibial translation during different isokinetic quadriceps torque in anterior cruciate ligament deficient and nonimpaired knees, 31(1):4–15

Arthroscopic Surgery
O'Connor DP, Jackson AS: Predicting physical therapy visits needed to achieve minimal functional goals after arthroscopic knee surgery, 31(7):340–358
Tyler TF, McHugh MP: Neuromuscular rehabilitation of a female Olympic ice hockey player following anterior cruciate ligament reconstruction, 31(10):577–587

Assistive Device
Mount J, Howard PD, Dalla Palu AL, Grafstrom A, Pinto DM, Rudy SL: Postures and repetitive movements during use of a long cane by individuals with visual impairment, 31(7):375–383

Back
Cibulka MT, Aslin K: How to use evidence-based practice to distinguish between three different patients with low back pain, 31(12):678–695
Kuiper JI, Verbeek JHAM, Frings-Dresen MHW, Kuiper SL: Assessment of short-term physical loading of the back: is serum keratan sulfate an appropriate biomarker? 31(9):472–480
Van Dillen LR, Sahrmann SA, Norton BJ, Caldwell CA, Fleming D, McDonnell MK, Bloom NJ: Effect of active limb movements on symptoms in patients with low back pain, 31(8):402–418

Back Loading
Heiss DG, Shields RK, Yack HJ: Anticipatory control of vertical lifting force and momentum during the squat lift with expected and unexpected loads, 31(12):708–729
Kuiper JI, Verbeek JHAM, Frings-Dresen MHW, Kuiper SL: Assessment of short-term physical loading of the back: is serum keratan sulfate an appropriate biomarker? 31(9):472–480
Lundon K, Bolton K: Structure and function of the lumbar intervertebral disk in health, aging, and pathologic conditions, 31(6):291–306

Balance
Cromwell RL, Aadland-Monahan TK, Nelson AT,

Stern-Sylvestre SM, Seder B: Sagittal plane analysis of head, neck, and trunk kinematics and electromyographic activity during locomotion, 31(5): 255–262

Risberg MA, Mørk M, Jenssen HK, Holm I: Design and implementation of a neuromuscular training program following anterior cruciate ligament reconstruction, 31(11):620–631

Biological Marker

Kuiper JI, Verbeek JHAM, Frings-Dresen MHW, Kuiper SL: Assessment of short-term physical loading of the back: is serum keratan sulfate an appropriate biomarker? 31(9):472–480

Bone Mineral Density

Girrbach RT, Flynn TW, Browder DA, Guffie KL, Moore JH, Masullo LN, Bare AC, Bradley Y: Flexural wave propagation velocity and bone mineral density in females with and without tibial bone stress injuries, 31(2):54–69

Cancer

Walsh RM, Sadowski GE: Systemic disease mimicking musculoskeletal dysfunction: a case report involving referred shoulder pain, 31(12):696–701

Cervical Spine

Lundon K, Bolton K: Structure and function of the lumbar intervertebral disk in health, aging, and pathologic conditions, 31(6):291–306

Mercer SR, Bogduk N: Joints of the cervical vertebral column, 31(4):174–182

Moeti P, Marchetti G: Clinical outcome from mechanical intermittent cervical traction for the treatment of cervical radiculopathy: a case series, 31(4):207–213

Nicholson GG, Gaston J: Cervical headache, 31(4): 184–193

Olson KA, Joder D: Diagnosis and treatment of cervical spine clinical instability, 31(4):194–206

Van Dillen LR, Sahrmann SA, Norton BJ, Caldwell CA, Fleming D, McDonnell MK, Bloom NJ: Effect of active limb movements on symptoms in patients with low back pain, 31(8):402–418

Chronic Pain

Hankin HA, Spencer T, Kegerreis S, Worrel T, Rice JM: Analysis of pain behavior profiles and functional disability in outpatient physical therapy clinics, 31(2):90–95

Compression Therapy

Kraemer WJ, Bush JA, Wickham RB, Denegar CR, Gómez AL, Gotshalk LA, Duncan ND, Volek JS, Putukian M, Sebastianelli WJ: Influence of compression therapy on symptoms following soft tissue injury maximal eccentric exercise, 31(6):282–290

Cuboid Syndrome

Leerar PJ: Differential diagnosis of tarsal coalition versus cuboid syndrome in an adolescent athlete, 31(12):702–707

Delayed Onset Muscle Soreness

Kraemer WJ, Bush JA, Wickham RB, Denegar CR, Gómez AL, Gotshalk LA, Duncan ND, Volek JS, Putukian M, Sebastianelli WJ: Influence of compression therapy on symptoms following soft tissue injury maximal eccentric exercise, 31(6):282–290

Disc Degeneration

Kuiper JI, Verbeek JHAM, Frings-Dresen MHW, Kuiper SL: Assessment of short-term physical loading of the back: is serum keratan sulfate an appropriate biomarker? 31(9):472–480

Lundon K, Bolton K: Structure and function of the lumbar intervertebral disk in health, aging, and pathologic conditions, 31(6):291–306

Eccentric Exercise

Kraemer WJ, Bush JA, Wickham RB, Denegar CR, Gómez AL, Gotshalk LA, Duncan ND, Volek JS, Putukian M, Sebastianelli WJ: Influence of compression therapy on symptoms following soft tissue injury maximal eccentric exercise, 31(6):282–290

Effect Size

Norton BJ, Strube MJ: Understanding statistical power, 31(6):307–315

Elbow

Coppieters MW, Stappaerts KH, Everaert DG, Staes FF: Addition of test components during neurodynamic testing: effect on range of motion and sensory responses, 31(5):226–237

Electromyographic Activity

Cromwell RL, Aadland-Monahan TK, Nelson AT, Stern-Sylvestre SM, Seder B: Sagittal plane analysis of head, neck, and trunk kinematics and electromyographic activity during locomotion, 31(5): 255–262

Jeon H, Trimble MH, Brunt D, Robinson ME: Facilitation of quadriceps activation following a concentrically controlled knee flexion movement: the influence of transition rate, 31(3):122–132

Hop Tests

Fitzgerald GK, Lephart SM, Hwang JH, Wainner RS:

Hop tests as predictors of dynamic knee stability, 31(10):588–597

Ilizarov Method
Barker KL, Simpson AHRW, Lamb SE: Loss of knee range of motion in leg lengthening, 31(5):238–246

Impact Force
Onate JA, Guskiewicz KM, Sullivan RJ: Augmented feedback reduces jump landing forces, 31(9):511–517
Wu S, Gross MT, Prentice WE, Yu B: Comparison of ball-and-racquet impact force between two tennis backhand stroke techniques, 31(5):247–254

Inclinometer
Johnson MP, McClure PW, Karduna AR: New method to assess scapular upward rotation in subjects with shoulder pathology, 31(2):81–89

Injury Prevention
Cerulli G, Benoit DL, Caraffa A, Ponteggia F: Proprioceptive training and prevention of anterior cruciate ligament injuries in soccer, 31(11):655–660
Lloyd DG: Rationale for training programs to reduce anterior cruciate ligament injuries in Australian football, 31(11):645–654
Williams GN, Chmielewski T, Rudolph KS, Buchanan TS, Snyder-Mackler L: Dynamic knee stability: current theory and implications for clinicians and scientists, 31(10):546–566

Isokinetics
Kea J, Kramer J, Forwell L, Birmingham T: Hip abduction-adduction strength and one-leg hop tests: test-retest reliability and relationship to function in elite ice hockey players, 31(8):446–455
Doorenbosch CAM, Mourits AJJM, Veeger DHEJ, Harlaar J, van der Helm FCT: Determination of functional rotation axes during elevation of the shoulder complex, 31(3):133–137
Kvist J, Karlberg C, Gerdle B, Gillquist J: Anterior tibial translation during different isokinetic quadriceps torque in anterior cruciate ligament deficient and nonimpaired knees, 31(1):4–15

Isometric Strength
McHugh MP, Tyler TF, Nicholas SJ, Browne MG, Gleim GW: Electromyographic analysis of quadriceps fatigue after anterior cruciate ligament reconstruction, 31(1):25–32
Worrell TW, Karst G, Adamczyk D, Moore R, Stanley C, Steimel B, Steimel S: Influence of joint position on electromyographic and torque generation during maximal voluntary isometric contractions of the hamstrings and gluteus maximus muscles, 31(12):730–740

Joint Mobilization
Borsa PA, Sauers EL, Herling DE, Manzour WF: In vivo quantification of capsular end-point in the nonimpaired glenohumeral joint using an instrumented measurement system, 31(8):419–431

Kinetics
Cromwell RL, Aadland-Monahan TK, Nelson AT, Stern-Sylvestre SM, Seder B: Sagittal plane analysis of head, neck, and trunk kinematics and electromyographic activity during locomotion, 31(5):255–262
Hiemstra LA, Lo IKY, Fowler PJ: Effect of fatigue on knee proprioception: implications for dynamic stabilization, 31(10):598–605
Johnson MP, McClure PW, Karduna AR: New method to assess scapular upward rotation in subjects with shoulder pathology, 31(2):81–89
Mercer SR, Bogduk N: Joints of the cervical vertebral column, 31(4):174–182
Onate JA, Guskiewicz KM, Sullivan RJ: Augmented feedback reduces jump landing forces, 31(9):511–517

Knee
Ageberg E, Zätterström R, Moritz U, Fridén T: Influence of supervised and nonsupervised training on postural control after an acute anterior cruciate ligament rupture: a 3-year longitudinal prospective study, 31(11):632–644
Barker KL, Simpson AHRW, Lamb SE: Loss of knee range of motion in leg lengthening, 31(5):238–246
Cerulli G, Benoit DL, Caraffa A, Ponteggia F: Proprioceptive training and prevention of anterior cruciate ligament injuries in soccer, 31(11):655–660
Fitzgerald GK, Lephart SM, Hwang JH, Wainner RS: Hop tests as predictors of dynamic knee stability, 31(10):588–597
Fridén T, Roberts D, Ageberg E, Waldén M, Zätterström R: Review of knee proprioception and the relation to extremity function after anterior cruciate ligament rupture, 31(10):567–576
Hayes KW, Peterson CM: Reliability of assessing end-feel and pain and resistance sequence in subjects with painful shoulders and knees, 31(8):432–445
Hiemstra LA, Lo IKY, Fowler PJ: Effect of fatigue on knee proprioception: implications for dynamic stabilization, 31(10):598–605
Houck J, Yack HJ: Giving way event during a combined stepping and crossover cutting task in an individual with anterior cruciate ligament deficiency, 31(9):481–495
Jeon H, Trimble MH, Brunt D, Robinson ME: Facilitation of quadriceps activation following a concentrically controlled knee flexion movement: the influence of transition rate, 31(3):122–132
Kvist J, Karlberg C, Gerdle B, Gillquist J: Anterior tibial translation during different isokinetic quadriceps torque in anterior cruciate ligament deficient and nonimpaired knees, 31(1):4–15
Lloyd DG: Rationale for training programs to reduce anterior cruciate ligament injuries in Australian football, 31(11):645–654
O'Connor DP, Jackson AS: Predicting physical therapy visits needed to achieve minimal functional

goals after arthroscopic knee surgery, 31(7):340–358
Risberg MA, Mørk M, Jenssen HK, Holm I: Design and implementation of a neuromuscular training program following anterior cruciate ligament reconstruction, 31(11):620–631
Tyler TF, McHugh MP: Neuromuscular rehabilitation of a female Olympic ice hockey player following anterior cruciate ligament reconstruction, 31(10):577–587
Watson CJ, Leddy HM, Dynjan TD, Parham JL: Reliability of the lateral pull test and tilt test to assess patellar alignment in subjects with symptomatic knees: student raters, 31(7):368–374
Williams GN, Chmielewski T, Rudolph KS, Buchanan TS, Snyder-Mackler L: Dynamic knee stability: current theory and implications for clinicians and scientists, 31(10):546–566

Lateral Tracking
Watson CJ, Leddy HM, Dynjan TD, Parham JL: Reliability of the lateral pull test and tilt test to assess patellar alignment in subjects with symptomatic knees: student raters, 31(7):368–374

Laxity
Borsa PA, Sauers EL, Herling DE, Manzour WF: In vivo quantification of capsular end-point in the nonimpaired glenohumeral joint using an instrumented measurement system, 31(8):419–431

Lifting
Heiss DG, Shields RK, Yack HJ: Anticipatory control of vertical lifting force and momentum during the squat lift with expected and unexpected loads, 31(12):708–729
Kuiper JI, Verbeek JHAM, Frings-Dresen MHW, Kuiper SL: Assessment of short-term physical loading of the back: is serum keratan sulfate an appropriate biomarker? 31(9):472–480
Warren LP, Appling S, Oladehin A, Griffin J: Effect of soft lumbar support belt on abdominal oblique muscle activity in nonimpaired adults during squat lifting, 31(6):316–323

Lumbar Support Belt
Warren LP, Appling S, Oladehin A, Griffin J: Effect of soft lumbar support belt on abdominal oblique muscle activity in nonimpaired adults during squat lifting, 31(6):316–323

Mechanosensitivity
Coppieters MW, Stappaerts KH, Everaert DG, Staes FF: Addition of test components during neurodynamic testing: effect on range of motion and sensory responses, 31(5):226–237

Medial Tibial Stress Syndrome
Bennett JE, Reinking MF, Pluemer B, Pentel A, Seaton M, Killian C: Factors contributing to the development of medial tibial stress syndrome in high school runners, 31(9):504–510

Median Nerve
Coppieters MW, Stappaerts KH, Everaert DG, Staes FF: Addition of test components during neurodynamic testing: effect on range of motion and sensory responses, 31(5):226–237

Motor Control
Van Dillen LR, Sahrmann SA, Norton BJ, Caldwell CA, Fleming D, McDonnell MK, Bloom NJ: Effect of active limb movements on symptoms in patients with low back pain, 31(8):402–418
Onate JA, Guskiewicz KM, Sullivan RJ: Augmented feedback reduces jump landing forces, 31(9):511–517

Movement Analysis
Doorenbosch CAM, Mourits AJJM, Veeger DHEJ, Harlaar J, van der Helm FCT: Determination of functional rotation axes during elevation of the shoulder complex, 31(3):133–137
Van Dillen LR, Sahrmann SA, Norton BJ, Caldwell CA, Fleming D, McDonnell MK, Bloom NJ: Effect of active limb movements on symptoms in patients with low back pain, 31(8):402–418

Muscle Fatigue
Hiemstra LA, Lo IKY, Fowler PJ: Effect of fatigue on knee proprioception: implications for dynamic stabilization, 31(10):598–605
McHugh MP, Tyler TF, Nicholas SJ, Browne MG, Gleim GW: Electromyographic analysis of quadriceps fatigue after anterior cruciate ligament reconstruction, 31(1):25–32

Muscle Flexibility
Willy RW, Kyle BA, Moore SA, Chleboun GS: Effect of cessation and resumption of static hamstring muscle stretching on joint range of motion, 31(3):138–144

Muscle Soreness
Kraemer WJ, Bush JA, Wickham RB, Denegar CR, Gómez AL, Gotshalk LA, Duncan ND, Volek JS, Putukian M, Sebastianelli WJ: Influence of compression therapy on symptoms following soft tissue injury maximal eccentric exercise, 31(6):282–290

Myofascial Dysfunction
Nicholson GG, Gaston J: Cervical headache, 31(4):184–193

Navicular Drop Test
Bennett JE, Reinking MF, Pluemer B, Pentel A, Seaton M, Killian C: Factors contributing to the development of medial tibial stress syndrome in high school runners, 31(9):504–510

Neck Pain
Moeti P, Marchetti G: Clinical outcome from mechanical intermittent cervical traction for the treatment of cervical radiculopathy: a case series, 31(4):207–213
Olson KA, Joder D: Diagnosis and treatment of cervical spine clinical instability, 31(4):194–206

Neurodynamic Testing
Coppieters MW, Stappaerts KH, Everaert DG, Staes FF: Addition of test components during neuro-

dynamic testing: effect on range of motion and sensory responses, 31(5):226–237

Neuromuscular Training

Fitzgerald GK, Lephart SM, Hwang JH, Wainner RS: Hop tests as predictors of dynamic knee stability, 31(10):588–597

Hiemstra LA, Lo IKY, Fowler PJ: Effect of fatigue on knee proprioception: implications for dynamic stabilization, 31(10):598–605

Risberg MA, Mørk M, Jenssen HK, Holm I: Design and implementation of a neuromuscular training program following anterior cruciate ligament reconstruction, 31(11):620–631

Tyler TF, McHugh MP: Neuromuscular rehabilitation of a female Olympic ice hockey player following anterior cruciate ligament reconstruction, 31(10):577–587

Williams GN, Chmielewski T, Rudolph KS, Buchanan TS, Snyder-Mackler L: Dynamic knee stability: current theory and implications for clinicians and scientists, 31(10):546–566

Odds Ratios

Levangie PK: Application and interpretation of simple odds ratios in physical therapy research, 31(9): 496–503

Osteoporosis

Boissonnault WG, Boissonnault JS: Transient osteoporosis of the hip associated with pregnancy, 31(7):359–367

Overuse Injury

Bennett JE, Reinking MF, Pluemer B, Pentel A, Seaton M, Killian C: Factors contributing to the development of medial tibial stress syndrome in high school runners, 31(9):504–510

Girrbach RT, Flynn TW, Browder DA, Guffie KL, Moore JH, Masullo LN, Bare AC, Bradley Y: Flexural wave propagation velocity and bone mineral density in females with and without tibial bone stress injuries, 31(2):54–69

Wu S, Gross MT, Prentice WE, Yu B: Comparison of ball-and-racquet impact force between two tennis backhand stroke techniques, 31(5):247–254

Pain Ratings

Hankin HA, Spencer T, Kegerreis S, Worrel T, Rice JM: Analysis of pain behavior profiles and functional disability in outpatient physical therapy clinics, 31(2):90–95

Passive Motion Testing

Fridén T, Roberts D, Ageberg E, Waldén M, Zätterström R: Review of knee proprioception and the relation to extremity function after anterior cruciate ligament rupture, 31(10):567–576

Hayes KW, Peterson CM: Reliability of assessing end-feel and pain and resistance sequence in subjects with painful shoulders and knees, 31(8):432–445

Olson KA, Joder D: Diagnosis and treatment of cervical spine clinical instability, 31(4):194–206

Patellofemoral Pain Syndrome

Watson CJ, Leddy HM, Dynjan TD, Parham JL: Reliability of the lateral pull test and tilt test to assess patellar alignment in subjects with symptomatic knees: student raters, 31(7):368–374

Power Analysis

Norton BJ, Strube MJ: Understanding statistical power, 31(6):307–315

Pregnancy

Boissonnault WG, Boissonnault JS: Transient osteoporosis of the hip associated with pregnancy, 31(7):359–367

Proprioception

Cerulli G, Benoit DL, Caraffa A, Ponteggia F: Proprioceptive training and prevention of anterior cruciate ligament injuries in soccer, 31(11):655–660

Fridén T, Roberts D, Ageberg E, Waldén M, Zätterström R: Review of knee proprioception and the relation to extremity function after anterior cruciate ligament rupture, 31(10):567–576

Hiemstra LA, Lo IKY, Fowler PJ: Effect of fatigue on knee proprioception: implications for dynamic stabilization, 31(10):598–605

Jeon H, Trimble MH, Brunt D, Robinson ME: Facilitation of quadriceps activation following a concentrically controlled knee flexion movement: the influence of transition rate, 31(3):122–132

Vaes P, Gheluwe BV, Duquet W: Control of acceleration during sudden ankle supination in people with unstable ankles, 31(12):741–752

Quadriceps

Jeon H, Trimble MH, Brunt D, Robinson ME: Facilitation of quadriceps activation following a concentrically controlled knee flexion movement: the influence of transition rate, 31(3):122–132

McHugh MP, Tyler TF, Nicholas SJ, Browne MG, Gleim GW: Electromyographic analysis of quadriceps fatigue after anterior cruciate ligament reconstruction, 31(1):25–32

Range of Motion

Barker KL, Simpson AHRW, Lamb SE: Loss of knee range of motion in leg lengthening, 31(5):238–246

Coppieters MW, Stappaerts KH, Everaert DG, Staes FF: Addition of test components during neurodynamic testing: effect on range of motion and sensory responses, 31(5):226–237

Doorenbosch CAM, Mourits AJJM, Veeger DHEJ, Harlaar J, van der Helm FCT: Determination of functional rotation axes during elevation of the shoulder complex, 31(3):133–137

Leerar PJ: Differential diagnosis of tarsal coalition versus cuboid syndrome in an adolescent athlete, 31(12):702–707

Walsh RM, Sadowski GE: Systemic disease mimicking musculoskeletal dysfunction: a case report involving referred shoulder pain, 31(12):696–701

Willy RW, Kyle BA, Moore SA, Chleboun GS: Effect

of cessation and resumption of static hamstring muscle stretching on joint range of motion, 31(3): 138–144

Regression Modeling

O'Connor DP, Jackson AS: Predicting physical therapy visits needed to achieve minimal functional goals after arthroscopic knee surgery, 31(7):340–358

Reliability

Hayes KW, Peterson CM: Reliability of assessing end-feel and pain and resistance sequence in subjects with painful shoulders and knees, 31(8):432–445

Kea J, Kramer J, Forwell L, Birmingham T: Hip abduction-adduction strength and one-leg hop tests: test-retest reliability and relationship to function in elite ice hockey players, 31(8):446–455

Watson CJ, Leddy HM, Dynjan TD, Parham JL: Reliability of the lateral pull test and tilt test to assess patellar alignment in subjects with symptomatic knees: student raters, 31(7):368–374

Repetitive Motions

Mount J, Howard PD, Dalla Palu AL, Grafstrom A, Pinto DM, Rudy SL: Postures and repetitive movements during use of a long cane by individuals with visual impairment, 31(7):375–383

Resistance Exercise

Simoneau GG, Bereda SM, Sobush DC, Starsky AJ: Biomechanics of elastic resistance in therapeutic exercise programs, 31(1):16–24

Running

Bennett JE, Reinking MF, Pluemer B, Pentel A, Seaton M, Killian C: Factors contributing to the development of medial tibial stress syndrome in high school runners, 31(9):504–510

Sampling and Specification

Roach KE: A clinician's guide to sampling and specification, 31(12):753–758

Scaleni Muscles

Rusnak-Smith S, Moffat M, Rosen E: Anatomical variations of the scalene triangle: dissection of 10 cadavers, 31(2):70–80

Selective Tension Testing

Hayes KW, Peterson CM: Reliability of assessing end-feel and pain and resistance sequence in subjects with painful shoulders and knees, 31(8):432–445

Serum Keratan Sulfate

Kuiper JI, Verbeek JHAM, Frings-Dresen MHW, Kuiper SL: Assessment of short-term physical loading of the back: is serum keratan sulfate an appropriate biomarker? 31(9):472–480

Sex-specific Rehabilitation

Fitzgerald GK, Lephart SM, Hwang JH, Wainner RS: Hop tests as predictors of dynamic knee stability, 31(10):588–597

Girrbach RT, Flynn TW, Browder DA, Guffie KL, Moore JH, Masullo LN, Bare AC, Bradley Y: Flexural wave propagation velocity and bone mineral density in females with and without tibial bone stress injuries, 31(2):54–69

Tyler TF, McHugh MP: Neuromuscular rehabilitation of a female Olympic ice hockey player following anterior cruciate ligament reconstruction, 31(10):577–587

Shoulder

Doorenbosch CAM, Mourits AJJM, Veeger DHEJ, Harlaar J, van der Helm FCT: Determination of functional rotation axes during elevation of the shoulder complex, 31(3):133–137

Hayes KW, Peterson CM: Reliability of assessing end-feel and pain and resistance sequence in subjects with painful shoulders and knees, 31(8):432–445

Johnson MP, McClure PW, Karduna AR: New method to assess scapular upward rotation in subjects with shoulder pathology, 31(2):81–89

Walsh RM, Sadowski GE: Systemic disease mimicking musculoskeletal dysfunction: a case report involving referred shoulder pain, 31(12):696–701

Soccer

Cerulli G, Benoit DL, Caraffa A, Ponteggia F: Proprioceptive training and prevention of anterior cruciate ligament injuries in soccer, 31(11):655–660

Stability

Ageberg E, Zätterström R, Moritz U, Fridén T: Influence of supervised and nonsupervised training on postural control after an acute anterior cruciate ligament rupture: a 3-year longitudinal prospective study, 31(11):632–644

Cromwell RL, Aadland-Monahan TK, Nelson AT, Stern-Sylvestre SM, Seder B: Sagittal plane analysis of head, neck, and trunk kinematics and electromyographic activity during locomotion, 31(5): 255–262

Fitzgerald GK, Lephart SM, Hwang JH, Wainner RS: Hop tests as predictors of dynamic knee stability, 31(10):588–597

Lloyd DG: Rationale for training programs to reduce anterior cruciate ligament injuries in Australian football, 31(11):645–654

McGill SM, Cholewicki J: Biomechanical basis for stability: an explanation to enhance clinical utility, 31(3):96–100

Olson KA, Joder D: Diagnosis and treatment of cervical spine clinical instability, 31(4):194–206

Risberg MA, Mørk M, Jenssen HK, Holm I: Design and implementation of a neuromuscular training program following anterior cruciate ligament reconstruction, 31(11):620–631

Williams GN, Chmielewski T, Rudolph KS, Buchanan TS, Snyder-Mackler L: Dynamic knee stability: current theory and implications for clinicians and scientists, 31(10):546–566

Statistical Analysis

Levangie PK: Application and interpretation of simple odds ratios in physical therapy research, 31(9): 496–503

Norton BJ, Strube MJ: Understanding statistical power, 31(6):307–315

Stretching Exercises

Willy RW, Kyle BA, Moore SA, Chleboun GS: Effect of cessation and resumption of static hamstring muscle stretching on joint range of motion, 31(3): 138–144

Swelling

Pugia ML, Middel CJ, Seward SW, Pollock JL, Hall RC, Lowe L, Mahony L, Henderson NE: Comparison of acute swelling and function in subjects with lateral ankle injury, 31(7):384–388

Tarsal Coalition

Leerar PJ: Differential diagnosis of tarsal coalition versus cuboid syndrome in an adolescent athlete, 31(12):702–707

Tennis

Wu S, Gross MT, Prentice WE, Yu B: Comparison of ball-and-racquet impact force between two tennis backhand stroke techniques, 31(5):247–254

Three-dimensional Measurements

Johnson MP, McClure PW, Karduna AR: New method to assess scapular upward rotation in subjects with shoulder pathology, 31(2):81–89

Tibial Bone Stress Injury

Girrbach RT, Flynn TW, Browder DA, Guffie KL, Moore JH, Masullo LN, Bare AC, Bradley Y: Flexural wave propagation velocity and bone mineral density in females with and without tibial bone stress injuries, 31(2):54–69

Torque-Angle Relationships

Worrell TW, Karst G, Adamczyk D, Moore R, Stanley C, Steimel B, Steimel S: Influence of joint position on electromyographic and torque generation during maximal voluntary isometric contractions of the hamstrings and gluteus maximus muscles, 31(12):730–740

Traction

Moeti P, Marchetti G: Clinical outcome from mechanical intermittent cervical traction for the treatment of cervical radiculopathy: a case series, 31(4):207–213

Transition Rate

Jeon H, Trimble MH, Brunt D, Robinson ME: Facilitation of quadriceps activation following a concentrically controlled knee flexion movement: the influence of transition rate, 31(3):122–132

Translation

Borsa PA, Sauers EL, Herling DE, Manzour WF: In vivo quantification of capsular end-point in the nonimpaired glenohumeral joint using an instrumented measurement system, 31(8):419–431

Kvist J, Karlberg C, Gerdle B, Gillquist J: Anterior tibial translation during different isokinetic quadriceps torque in anterior cruciate ligament deficient and nonimpaired knees, 31(1):4–15

Treatment Duration

O'Connor DP, Jackson AS: Predicting physical therapy visits needed to achieve minimal functional goals after arthroscopic knee surgery, 31(7):340–358

Upper Limb Tension Test

Coppieters MW, Stappaerts KH, Everaert DG, Staes FF: Addition of test components during neurodynamic testing: effect on range of motion and sensory responses, 31(5):226–237

Visual Impairment

Mount J, Howard PD, Dalla Palu AL, Grafstrom A, Pinto DM, Rudy SL: Postures and repetitive movements during use of a long cane by individuals with visual impairment, 31(7):375–383

Walking

Cromwell RL, Aadland-Monahan TK, Nelson AT, Stern-Sylvestre SM, Seder B: Sagittal plane analysis of head, neck, and trunk kinematics and electromyographic activity during locomotion, 31(5): 255–262

Wrist

Coppieters MW, Stappaerts KH, Everaert DG, Staes FF: Addition of test components during neurodynamic testing: effect on range of motion and sensory responses, 31(5):226–237
